

ISO 14001:2004
EMS Internal Audit
Training

Organised By

RAJ

Raj Management Group

Environment in
focus

Introduction

To remain Competitive in the customer driven market, organizations have realized necessity of integrated, balanced & sustained growth & hence decide to get certified for ISO 14000 to demonstrate concern toward Environment protection and care as an integral part of business management systems.

Objective

Conducting Internal Environment Audit (IEA) is one of the mandatory requirements before and after getting ISO 14000 Certificate. It is experienced and believed worldwide that stronger the internal audit, stronger is the systems within the organization. For this, Organizations need skilled team members who can effectively conduct internal audits, face certification / surveillance audits and gain maximum benefits out of Environment System. This training program aims at providing tools and techniques to the participants to conduct Internal Audits and maintain Environment Systems effectively in their organization.

Timings:

Dates & Venue:

Topic Coverage

- Concept and need of Environment Protection.
- Various global initiatives w.r.t. Environment Protection.
- Overview of ISO 14001 EMS.
- Concept of Aspect & Impact Identification.
- Important Areas to be focused during Implementation.
- Detailed Discussion and explanation of entire standard.
- Linkage of all clauses to existing documents of organization.
- Introduction, Need, Plan & Conduct of IEA based on ISO 19011:2002.
- Terminologies used in IEA.
- Process Approach based Audit - Latest trend in global auditing practice.
- Overview on preparation of checklist.
- Writing IEA reports with practical case studies.
- Skills required for a good Auditor.
- Test for 60 Minutes.

Certificate

We will conduct a test at the end of training and all successful candidates will be issued a certificate of Internal Environment Auditor for ISO 14001:2004.

Training Methodology

Combinations of various techniques like Live Discussions, Brain Storming, Case Studies, Exercises, Readings, Sharing of Practical Experiences shall be used in this highly interactive workshop.
